

Condensate siphons

Siphons for gas and oil condensing units

The condensate siphons prevent the emission of harmful carbon monoxide. They can be combined with different boilers in a plug & play manner and are simple and convenient to maintain.

Condensate siphons for gas and oil heating

Products	Condensate inlet	Condensate outlet	Article Number
 Bottle siphon	DN 25 / horizontal	DN 20-25 / horizontal	1001822
	DN32 / horizontal	DN 20-25 / horizontal	1001965
 Pipe siphon	DN 40 / horizontal	DN 20-25 / horizontal	1001966
	DN 40 / vertical	DN 20-25 / horizontal	1001967
	DN 50 / horizontal	DN 20-25 / horizontal	1001968

Your benefits with the condensate siphons at a glance

- **Plug & Play:**
The condensate siphons can be connected to any condensing unit simply by plug & play.
- **Legal requirement:**
The siphons comply with the State of the Art Paper (STP) of the Association of Cantonal Fire Insurers (VKF).
- **Easy handling:**
Easy maintenance possible without dismantling the complete siphon.
